Introduction

SUPERCON has invested heavily in flexible manufacturing set-ups and engineering, to adopt, upgrade and deliver products in line with the latest technology.

Situated in Riico Indl Area, Bagru Extn. Bagru, Jaipur is Spread over 10,000 sq. m. of land, the state of art Plant has become an object of pride for the management With the installed production crossing the planned capacities, activities are already on at the Plant to double the capacity.

RMC Under the Brand Name "Supercon" is having demanding growth due to maintaining product's required standards and quality with scheduling of prompt delivery and last but not least quick after sales services along with competitive price as a part of its value offering, which deploys expert quality systems to manage the quality of raw material and efficient raw mix design and cube test results to analyze data statistically.

Ready-mix concrete is concrete that is manufactured in a computerized automatic batching plant, according to a set recipe, and then delivered to a work site by truck mounted intransit mixers. This results in a precise and homogenous mixture, allowing specialty concrete mixtures to be developed and implemented on construction sites.

The Supercon ready mixed concrete is ensured by use of special high-efficiency mixers and well trained and experienced engineers with a well equipped lab for 100% quality assurance & we are available at 24X7 to take care of the every single concern of quality concrete.

We consider our major asset as the human resources in various disciplines like engineering, design, quality manufacturing, and sales and marketing.

We produce M5 to M50 Grade Concrete

Supercon ready mix is state of art concrete plant with an average capacity of 30 cum/Hour

The prompt and timely deliveries to sites are the extra advantage of the company to its customer

Concrete Mixer Make, Schwing Stetter, Model AM 7SHC2

Truck Make TATA, LPK 2518 TC/38

Pump Make, Schwing Stetter, Model SP 1200, 1400

Product Range

- ▶ Self Compacting Concrete
- ▶ Cold Concrete
- ▶ Color Concrete
- ▶ Light Weight Concrete
- ▶ Fibre-reinforced Concrete
- ▶ Water-Proof Concrete
